What is the state of  
homelessness in NB??

# STATE OF EMERGENCY

**CRISIS**

The word "CRISIS" is rendered in large, bold, red 3D block letters. It is positioned on a white, cracked surface that resembles dry earth or ice. The cracks are deep and jagged, extending across the foreground and around the base of the letters. The lighting is bright, casting soft shadows from the letters onto the surface. The entire scene is framed by a thin yellow border.

**Derrick May** is in Waterloo Village.

Got ambushed by Fresh start yesterday on my way home, if you don't know they are a non profit who is responsible for running the encampment but totally disregard the voice of the community., 2+2 = 5

Put children safety over drug addicts and crime.

Homelessness is not the problem, Drug use will continue

Feb 9 · 🌐

It really p\*\*\*\*\* me off that fresh start sits there and collects paychecks to do nothing accept. Protect crystal meth producers And crystal meth dealers and enabling all the drug addicts that are down there in tent city . And you're supposed to be down there helping these drug addicts Misty Schofield. And trying to get them help they don't want help. They want to sit there and do their drugs and put the safety of the community at risk by doing break and enters with guns. Shame on you fresh start

Seth asimokas- the head of Klediscope social development. The guy who has a back door deal with the city to allow his property to be used as a tent encampment. While he's taking pictures by waterfalls, people are freezing and burning to death. This is the guy who just got 50k to go god knows where. FYI same guy whose

**Hayley Macphail** Why would Melanie, the dorector of the YWCA run to defend pocahontas?

January 12 · 🌐

It's getting outta hand. C'Mon Seth. Have some respect for the people who actually make the are a community and call it home. Seth and Klediscope are doing their best to purposefully devalue the area so they can continue to buy up neighbouring properties for cheap.

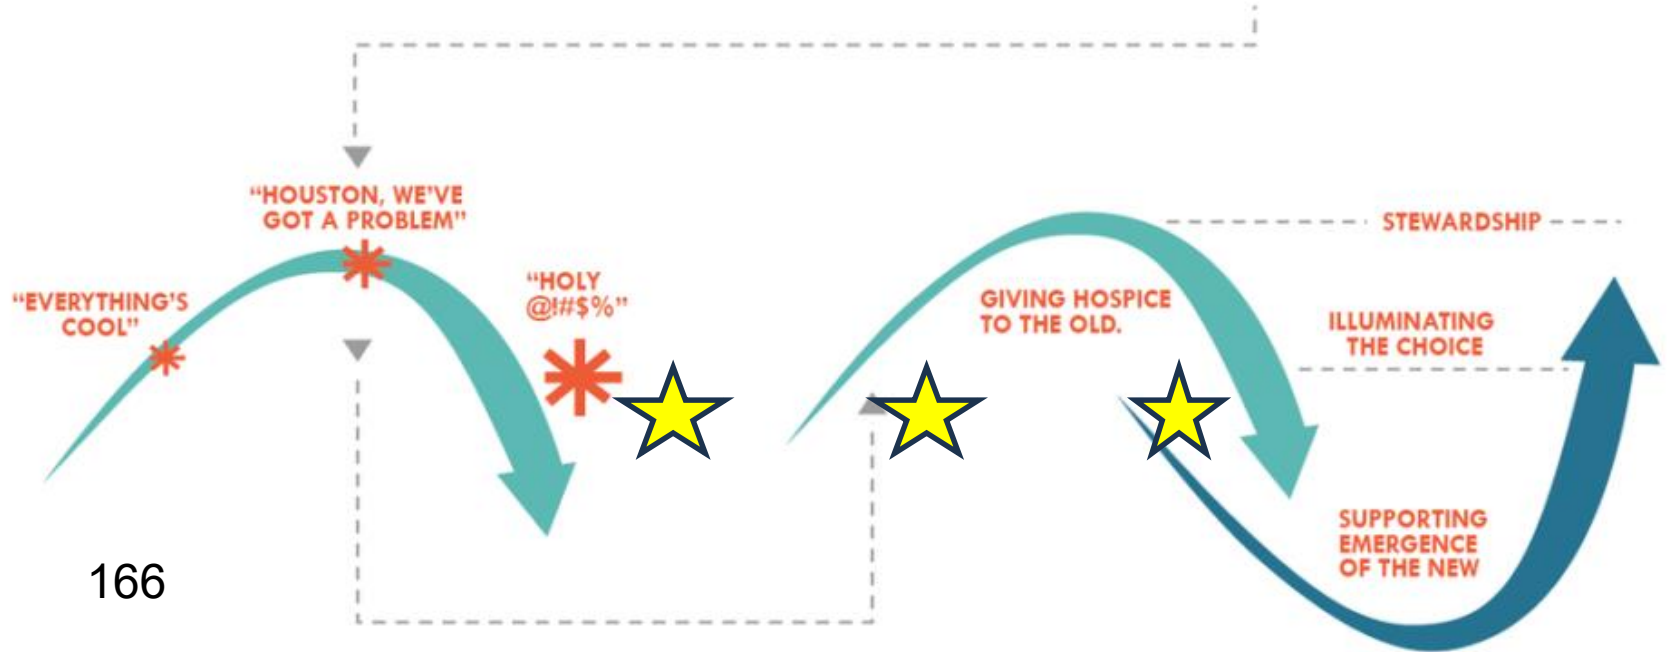

**Melanie Vautour** I hope you enjoyed ruining waterloo village. Those days are almost over. You better kill as many people with drugs as you can now. Get your fill in cause were taking our community back soon

Exactly ~~100~~ % + MISTY SCOFIELD AND FRESH START are "USELESS"
